Through the Baltic Eyes
The project idea created by

SIMONA JAKAITE
TERESA GARCIAS
ВИКТОРИЯ ХОМЯКОВА
ANDREAS SCHOOP
A book created by the Baltic for the Baltic
### Project in Short:

**A Baltic Sea "Guest-Book"**

We believe that regional identity must be formed with the "bottom-up" approach, hence a book that everyone can contribute to.

<table>
<thead>
<tr>
<th>A. What is it about?</th>
<th>Our region, people will be able to write their memories, hopes, visions, recommendations etc.</th>
</tr>
</thead>
<tbody>
<tr>
<td>B. Where will the book be?</td>
<td>We hope that during winter (and the current wave of covid) it could stay at the CBSS office but later we plan to keep it in different locations such as our universities, museums or NGO's.</td>
</tr>
<tr>
<td>C. Does the book already exist?</td>
<td>No, due to some issues our entry is the project idea, however within a week or 2 we hope to create the actual book. It does not matter that the BSYD will have ended by then, we believe in this project and think it is worth creating.</td>
</tr>
<tr>
<td>D. If we win?</td>
<td>We would make sure to take the book with us on our interrail journey!</td>
</tr>
</tbody>
</table>
This is what we wish to add in the book:
Dear reader(s),

we are 4 young people who met during the Baltic Sea Youth Dialogue and believe that our region lacks more personal connections between us.

For this reason, we decided to create this book that You are holding right now! You have an opportunity to become its co-author(s) by adding Your personal touches to it.

How? Easy! Just take a pen (or a pencil) and write about our region, our sea and anything you could think of!

To help with the inspiration we have scattered questions through, so take a look, maybe you will think of something. Of course, You are free to write any memory/thought/dream You have about the Baltic Sea region!

And if writing is not something You wish to do – draw! Illustrations and decorations are welcome too!

Of course, You are welcome to see what others have shared before! Maybe You will find a new vacation spot? Or see that someone shares Your vision for the future? Or maybe someone shared their great experience in Your hometown?

Please help our project to be successful by contributing to this one of the kind "guest-book" of the Baltic Sea

Thank You,
The Insight Team
A map to see where our contributors are from:

We are curious to know where you are from, so please! Mark your home on the map.

The Baltic Doodle:

Please draw whatever you wish that you associate with the Baltic Region and let's create one collaborative drawing! Remember, it's okay to be messy!
Please write down your recommendations on what are the MUST VISIT places in our region, together and inspire everyone to visit them!

An example of suggested tasks in the book to make it more fun:

An example of suggested tasks in the book to make it more fun:

The Baltic Symbolism:

Share what is the symbol of the Baltic Sea to you!
What is your first memory of the Baltic sea?

If you could solve one problem in our region, what would you choose?

How did the region look 30 years ago?

What is your dream for our region?

How close do you feel to the Baltic Region?

We plan to add many more questions all over the book.
Quick survey question we would love to add to the book:

Would you like a Baltic Sea Music Festival?

What do you think about a floating concert hall for the Baltic Sea?

What is the MOST Baltic thing ever?
The presentation was created using visual material from canva.com
We hope you also got exited about our project and cannot wait to write/draw something in it!
